Securing enterprise and personal mobility

Thursby Announces Landmark Sales, Special Holiday Pricing

Arlington, Texas, November 14, 2014 – With over 25,000 licensed mobile units to date, Thursby Software Systems is the leading seller of CAC and PIV readers and software for Apple iPads, iPhones, and iPods.

To celebrate this landmark achievement Thursby is offering a holiday special on all 30-pin readers. Both the 30-pin plug-in sturdy metal readers and the iPad 2/3 cases have been marked down to \$99.99. These items are both available for immediate purchase via the Thursby website (<http://www.thursby.com/purchase/pkard-reader>) and through their Authorized Federal Resellers (<http://www.thursby.com/government>) .

All of Thursby's 30-pin and Lightning readers come bundled with the PKard® Reader app. The U.S. engineered PKard Reader secure web browser supports web site access from an iPad or iPhone with strong two-factor authentication. Web, web email, portal, and collaboration site access are supported including Microsoft Outlook Web Access (OWA), Defense Travel Systems (DTS), and SharePoint, for example, U.S. Military AKO, NKO, and AF Portals. The app is approved under DISA's DoD Mobile App Store (<http://www.disa.mil/Services/Enterprise-Services/Mobility/DoD-App-Store>) . The browser also acts as an authentication agent, smoothly coordinating reader and card access to an optional secure app ecosystem (<https://www.thursby.com/ios-apps>) .

About Thursby Software Systems Thursby is an American company celebrating nearly three decades of enterprise Apple Macintosh, iPad, and iPhone integration, management, and security specialization. For more information about Thursby and its products, please visit <http://www.thursby.com>
