

Run Firefox *WITHOUT* Installing it

~ No Admin Rights Needed! ~

1. Download Firefox: <http://www.firefox.com>
2. Save to your desktop
3. Rename the Firefox Setup **.exe** file to **.zip**.
4. Extract the zip file contents to a folder on your desktop.
5. In the extracted contents find the file titled “firefox.exe” and double click it to run Firefox!
